ABOUT OUR FOUNDER

Founder Craig Fallshaw's knowledge of complementary medicine – its manufacture, formulation, active ingredients and business processes – is in his blood. After all, he began his career 20 years ago in the family business, a contract manufacturer that had been founded by his grandfather in 1972.

Craig built on this manufacturing experience with experience in sales and marketing, giving him a unique insight into the complementary medicine field. In 2010, he founded Complementary Medicines Group (CMG), to provide full service to the complementary medicines, food and over-the-counter pharmaceuticals industries. And to bring some fun into this very competitive and serious business. CMG has the resources and knowledge base to help you get your product to market - from concept and formulation, right through to branding, marketing and website optimisation.

Craig's vision for CMG is to be a conduit for innovation, by bringing new concepts and technology to sponsors of complementary medicines in Australia, and to take the hassle out of the management and sourcing of products and services.
